## **Clear Stability**

**Our Pooled Approach** 

In order to create stability for all participants of our programs, our pooled approach blends the factors that normally create rate volatility for traditional group plans:

Initial pricing • Average age • Gender mix # of staff Inflation trend

While the factors affecting the rates for individual groups can vary significantly from year to year, our pooled programs have a proven history of delivering rate stability for all clients making our plans easier to budget for.

## **A Few Questions**

#### • Will my employees want a plan?

Overwhelmingly, YES. Almost all employees value a benefits plan far in excess of a cash raise.

#### • Will my employees value the plan we choose?

Employees always seem to appreciate a benefits plan that provides good value. They could now have affordable access to a wider variety of quality healthcare than they may normally afford for themselves and their families (i.e. dental, prescriptions, vision, chiropractor etc.) A healthier workforce means fewer sick days and less disruption for your business.

#### Is the plan affordable?

Employers are always pleased with how affordable our plans are. ClearBenefits.ca programs provide premium coverage with an option for almost any budget.

#### • Should we share the cost of the plan with our employees?

Most employers share the cost of a plan 50/50 with their employees. Generally employees expect there will be a cost sharing of the plan.

#### • Can the "couple" rate apply to a single parent with 1 eligible dependent?

Yes. It can apply to a married couple, common-law spouses or a single parent with 1 eligible dependent.

#### • Is there much on-going administration?

Not really. Normal ongoing administrator functions are just regular maintenance; adding/deleting employee & dependent information and payroll deductions of the employee portion. Employees are responsible for reporting any changes to the plan administrator, and for privacy, employees submit claims directly to the insurer.

#### • Will we have help with the initial set-up and on-going support?

Yes! We utilize a structured approach from our initial contact to the ongoing service. Our structured approach is designed to ensure your plan runs smoothly, is kept current, contains costs, and effectively eliminates common administrative issues that can arise.

#### • How much will this cost?

We find that if the employer's portion of the monthly premium is approx. 2.5—3.5% of payroll (based on a 50/50 cost sharing with the employees), both the employer and the employees are comfortable and feel they are getting good value. Depending on the option selected, this can be more affordable than a cash raise, with no additional EI, CPP or WCB contributions.
